In the words of Fr. General, the secretariat will have the task of promoting the four great dynamism and the coordination of the area teams within this central NUCLEUS. These are, therefore, the functions of this secretariat:

a) Transversality: Study, discernment, and promotion of four great dynamism, in all our mission platforms and the life of the provinces:

- Calasanzian Identity and Formation
- The centrality of children and young people, attention to the poor: Quality of processes and Innovation
- Global Educational Compact
- Evangelization

b) Coordination of the area teams that are integrated into this nucleus

- Coordinating Team of the Network of Piarist Parishes.
- Calasanz Movement Coordinating Team.
- Coordinating team of the Non-Formal Education and Social Action Network
- Continuous Prayer.

On July 12, we had the first virtual meeting of the Secretariat to develop a program that would boost our educational proposal.

We are very motivated by this mission that the General Congregation entrusts to us, and we hope that our work will help all the Pious Schools to improve the educational proposal through their different mission platforms. We count on everyone's support and prayer.
